ABOUT ME

I'm Abdullah, a dedicated Python Scraping Developer skilled in building fast, efficient, and automated data extraction systems. I specialize in web scraping, browser automation, and data processing using Python tools like Playwright, Selenium, and BeautifulSoup. I create clean, reliable scripts that extract real-time data and convert it into useful insights. Alongside scraping, I also work with APIs, Excel automation, and backend logic to deliver complete end-to-end solutions with accuracy and speed.

EXPERIENCE

INTERNATIONAL ESTIMATING LLC

◆ **Email Marketing Executive / Assistant**

• Experienced in client hunting and effectively managing client relationships to ensure satisfaction and long-term collaboration.

SURUCHI HOTEL ANALYSIS

◆ **Scraping Developer**

• Worked as a Python Web Scraping Developer for 2 months, creating automated scripts to extract accurate data from websites using tools like Playwright, Selenium, and BeautifulSoup.

TOOLS & OTHERS

Scraping libraries (like Scrapy, Beautiful Soup), Vs Code, Git, GitHub
